

CAMP TOWANDA OLYMPIC SING 2014- BLUE SKI PATROL

March

“Let it go”

The snow glowed white on main court that night
As we united as a team
Safety is our main priority
As we strap into our skis
These past five days the ski lift took us to the top
With our adrenaline, we can't be stopped

Let it snow! Let it snow!
Zip up your puffy coats
Let it snow! Let it snow!
Tighten helmets and let's go
Here we stand on our own two skis
With our goggles on
The cold never bothered us anyway

“I'll Be There For You”

No one told us that summer would be this way
There's always rain; we wake up cold everyday
But blue came prepared with our winter gear
Got gators, gloves, and foot warmers, no complaints here

We'll be there for you
If you lose a ski or two
We'll be there for you
If you wipe out on a blue
We'll be there for you
Cause savings what we do

Mitch always says there are no hills in CT
We beg to differ as we race around with ease
We'd like to take this time to thank red team

For looking out for us when we water-ski

We'll be there for you
If an avalanche comes through
We'll be there for you
If you lose your ski school crew
We'll be there for you
Cause you can depend on blue

“Do you want to build a snowman?”

Do you want to build a snowman?
Or ride our sleds around the lake?
You can count on blue, to rescue you
Ski patrol is on the way!

At the swim meet and the track meet,
Our skis helped us
And our poles helped at tug of war

Skiing's a breeze when you learn how
Come on red, let's hit the slopes now

Leaders: It's time to go ski!

Everyone: OK bye

Cheer

“Winter Wonderland”

Frozen played, were you listenin’
We saw the snow as it glistened
Snowmobiles lead us up, generals ran up
CCs, Lt’s, sergeants and it began

These past five days, we’ve skied right by you
Apache, long jump, and foul shooting too
At ghost and softball, gaga, basketball
We do it better than the red team can

Perfect form is our forte
No pizza skis, the instructors say
On a green, blue, or black, red team watch your back
Towanda is our winter wonderland

“Ice, Ice, Baby” / “Help”

Ice, Ice, blue team
Ice, Ice, blue team
Judgies, sit back, keep sippin’
You hot cocoa as you listen
One sec, an emergency phone call

HELP! When you need somebody
HELP! Not just anybody
HELP! There when you need someone to help

We’ll be there in a flash if you fall down
Don’t worry, cause we’re always around
And if you’re lost, we won’t rest till you’re found
Just scream, “blue team, help me!”

“Rather Be”

We've spent two months together
But sometimes it gets tough
To stay best friends forever
When the ski terrain is rough

But despite some challenges
We faced at camp this year
More in love than ever
The ski patrol is here

With every slope we ski
You feel closer to me
And me closer to you

The ski patrol can see
We're one big family
United by our blue
We're so happy to be here together
Making white lines in the freezing weather
In our blue snowsuits, we stand as a family
When I am with you, there is no place I'd rather ski

“Get Low”

1, 2, 3, let's go ski
Duck down so you don't hit that tree
Get low, get low (x6)
From the ski lodge, to the slopes
To our dodging skills at ghost
Cross-country ski, we coast

AH ski, ski, red team, red team
AH ski, ski, you fell down, fell down
AH ski, ski, blue team, blue team

AH ski, ski, it's crown, our crown
